

Fermilab 2016 Final Golf Outing Orchard Valley Golf Course

Format: Scramble

All Players tee-off, proceed to the best ball. All players take their next shot from that location. Repeat until ball is putted into the hole. No gimmies. Don't tap in a putt until all attempts have been made. The number of shots made when the first ball hits the bottom of the cup is the score for the hole. Minimum drives per player are not required. Record one score for each hole. Turn in scorecards to Outing personnel after play.

Players in a threesome will get four shots from each ball position. The person taking the extra shot shall rotate in a pattern determined before play begins.

Most players will play from the white tees (5861 yds). Seniors (~65) and women are welcome to play from the red (5162 yds) tees. Please let Outing personnel know if you're playing from the forward tees.

Team handicap: Fermilab league handicap or USGA index will be used and converted to an 18 hole course handicap at Orchard Valley. Players on a team will be ranked from lowest ("A" player) to highest ("D" player) handicap. The team handicap will be computed using the following formula;

$$\text{Team Handicap} = 0.2A + 0.15B + 0.10C + 0.05D$$

Team prizes:

The total for the round less the team handicap is the team's net score and will be used for team prizes. A low team gross score prize will also be awarded

Individual hole prizes:
