CURRICULUM VITAE

Scott Dodelson
Fermi National Accelerator Laboratory
Box 500 MS-209
Batavia, Illinois 60510
(630) 840-2426 ; (847) 982-0429

EMPLOYMENT

Fermi National Accelerator Laboratory
Interim Director, Center for Particle Astrophysics (2006-present)
Scientist II (2004-present)
Head Theoretical Astrophysics (2001-6)
Scientist I (1999-2004)
Associate Scientist (1994-1999)
Research Associate (1991-1994)

University of Chicago
Professor, Part Time, Department of Astronomy and Astrophysics (2004-present)
Associate Professor, Part Time (1998-2004)
Visiting Professor (1995-1998)

Northwestern University
Visiting Professor, Department of Physics and Astronomy (2004-5)

Harvard University
Post-doctoral Fellow, Department of Physics (1988-1991)

Columbia University
Research Assistant, Physics (1985-1988)
Research Assistant, Experimental Particle Physics (1983)

Weizmann Institute of Science
Research Assistant, Karyn Kupcinet International Science School (1982)

EDUCATION

Columbia University
PhD in Theoretical Physics, Advised by Gerald Feinberg (1988)
Joint BA/BS in Applied Physics, Columbia College and School of Engineering and Applied Science (1983)

TEACHING AND MENTORING

2002-present: Supervised undergraduate theses: Sara Burtwell, "Correlation function of SDSS galaxies," (2002); Matt Billmire, "Lensing of the CMB by clusters of galaxies," (2003); Brian Klein, "Weak Lensing by Clusters in HST Data" (2007).

1995-present: Taught in Department of Astronomy and Astrophysics at the University of Chicago. Graduate seminars on the large scale structure of the universe, the cosmic microwave background, gravitational lensing, and QSO absorbtion systems. Core courses for first year graduate students on Radiative Processes in Astrophysics and Cosmology. Undergraduate course on galaxies and the universe for physics majors concentrating in astronomy.

1995-present: Supervised graduate students: Kim Coble (PhD 1999), Ryan Scranton (2002), Eduardo Rozo (2006), Fabian Schmidt (expected 2009).

1994-present: Supervised post-doctoral fellows. These include: Stephane Colombi (currently faculty at IAP), Andrew Heckler (Ohio State), Yun Wang (Oklahoma), Istvan Szapudi (Hawaii), Antonio Riotto (CERN), Will Kinney (Buffalo), Chris Metzler, Lam Hui (Columbia), Andrew Sornborger (Georgia), Ewan Stewart (KAIST), Zoltan Haiman (Columbia), Pasquale Blasi (Florence), Michael Blanton (NYU), Idit Zehavi (Case Western), Ravi Sheth (Penn), Andreas Berlind (post-doc at NYU), John Beacom (faculty at Ohio State), Nicole Bell (Melbourne), Patrick Greene (Texas), Kev Abazajian (Maryland), Gianfranco Bertone (IAP), Pengjie Zhang (Shanghai), Dan Hooper (FNAL), Kenji Kadota (post-doc at Minnesota), Mark Jackson (FNAL), Chris Vale (FNAL), Emiliano Sefusatti (FNAL), and Pasquale Serpico (FNAL).

1987-1990: Volunteer: Brookline School System and Double Discovery Program in New York City. Guided disadvantaged elementary student in independent research project. Tutored urban high school students in math and science.

1982 - 1986: Preceptor of Columbia's undergraduate physics labs.

HONORS, AWARDS, AND ACTIVITIES

- Advisor, *Annual Review of Nuclear and Particle Science* (2007)
- External Referee: Israel Science Foundation, Natural Sciences and Engineering Research Council of Canada (2007)
- Chair, NASA Astronomy and Physics Research and Analysis panel (2007)
- Member, Kavli Institute for Cosmological Physics, University of Chicago (2006-present)
- Panel Member for DOE Innovative and Novel Computational Impact on Theory and Experiment (INCITE) Program (2006)
- Member, Astronomy and Astrophysics Advisory Committee (2006-present)

- Member, Aspen Center for Physics (2006-present)
- Program Committee, Annual Meeting Division of Particle of Fields (2006)
- Managing Editor, International Journal of Modern Physics D (2004-present)
- *Fellow*, American Physical Society (2004)
- Divisional Editor, Physical Review D (2004-6)
- Principal Investigator, NASA Grant, "Fundamental Physics from Space" (2004-2006)
- Organizer, "Fundamental Physics from Clusters of Galaxies" (2004)
- Editor, Journal of Astroparticle Physics (2003-present)
- Member, Local Advisory Committee, Center for Cosmological Physics, Chicago (2001-5)
- Head, External Advisory Committee, Theoretical Astrophysics Center, Denmark (2002)
- Co-organizer, Workshop on Neutrinos and Cosmology, Fermilab and Cosmo-02 (2002)
- PI, National Science Foundation Grant 0118263, "Workshop on Cosmology" (2001)
- PI, National Science Foundation Grant PHY-0079251, "Probing Fundamental Physics with Cosmological Observations," (2000-2003)
- Co-Organizer "Chicago Chattaqua on Cosmology," for thirty college teachers (1999,2001)
- Co-Organizer "Pritzker Symposium and Workshop on Inflation," (1999) "Inner Space/Outer Space II," and "Santa Fe Workshop on Cosmology" (1999).
- Organized "Sloan Digital Sky Survey Collaboration Meeting" and "Missing Energy in the Universe" Workshop (1998)
- Panel member for National Science Foundation research proposals
- Panel member for NASA Astrophysics Theory Program research proposals
- Reviewer for Department of Energy research proposals
- Referee for *Physical Review D, Physical Review Letters, Astrophysical Journal, Astrophysical Journal Letters, Annals of Physics, Physics Letters, New Astronomy*
- Member, Large Scale Structure Working Group, Sloan Digital Sky Survey
- Member, PYTHON anisotropy experiment science team
- Member, Americal Physical Society, Astrophysics Division
- Co-investigator on Fermilab Astrophysics' NASA grant (1994,1997,2000)
- Appointed Preceptor overseeing undergraduate labs, Columbia University (1985)
- Garden State Graduate Fellowship (1983)
- Sigma Pi Sigma (Physics Honor Society) (1983)

- Third, second prizes, Van Buren Math Prize Competition (1982,83)
- Tau Beta Pi (National Engineering Honor Society) (1982)
- Selected for Summer Research Program at Weitzmann Institute (1982)

Book

Modern Cosmology (Academic Press, Amsterdam, 2003).
