Past Publications in Refereed Journals

Please note that in addition to my primary publications listed above, I have been a member of the CDF author list since January 2006 with almost 400 publications and almost 20,000 citations (based on the SPIRES - High-Energy Physics Literature Database). I have also made major contributions to more than 100 unpublished notes documenting my work for the CDF, Mu2e, and NOvA collaborations. A complete list of publications can be supplied upon request.
