

Equipment List for KTeV Filter Wheel Electronics (part of laser system)

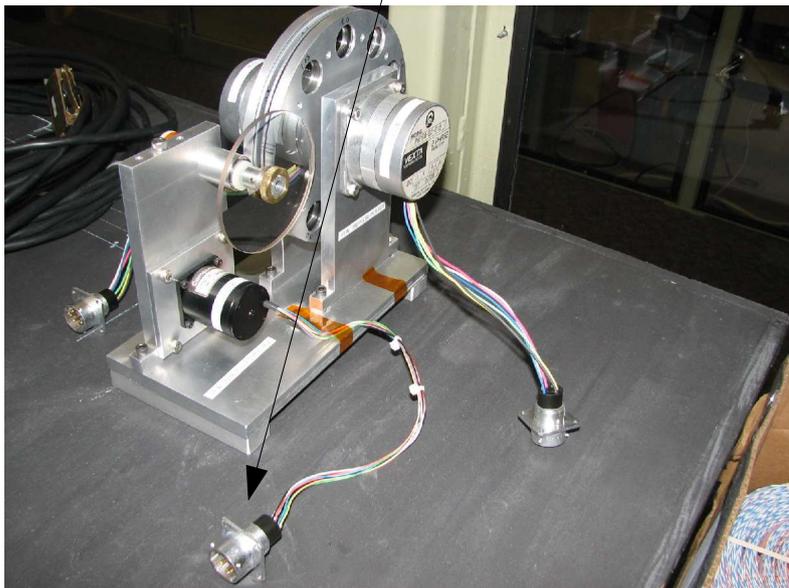

<u>Description</u>	<u>Quantity</u>
Unmodified Joerger SMC24 BP Camac Module	1
Modified Joerger SMC 24 BP Camac Module	2
PS for VFW and connection cable to SMC24BP	1
Connection Cable from SMC 24BP to FFW	2
Connection Cable from VFW PS to VFW	1
Filter wheel system assembly	1

Connection for Variable Filter Wheel (VFW)

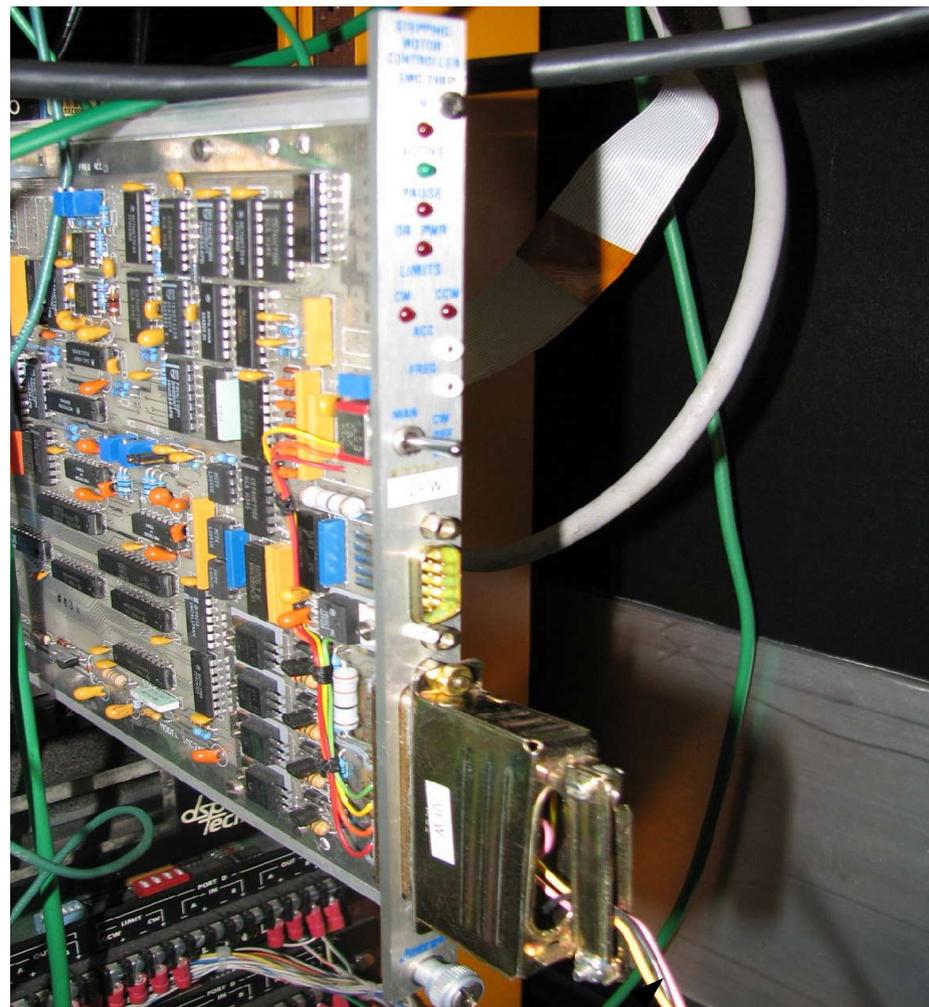

VFW Power Supply

Black Cable goes to VFW

3-wire cable goes to Camac Joerger SMC 24BP

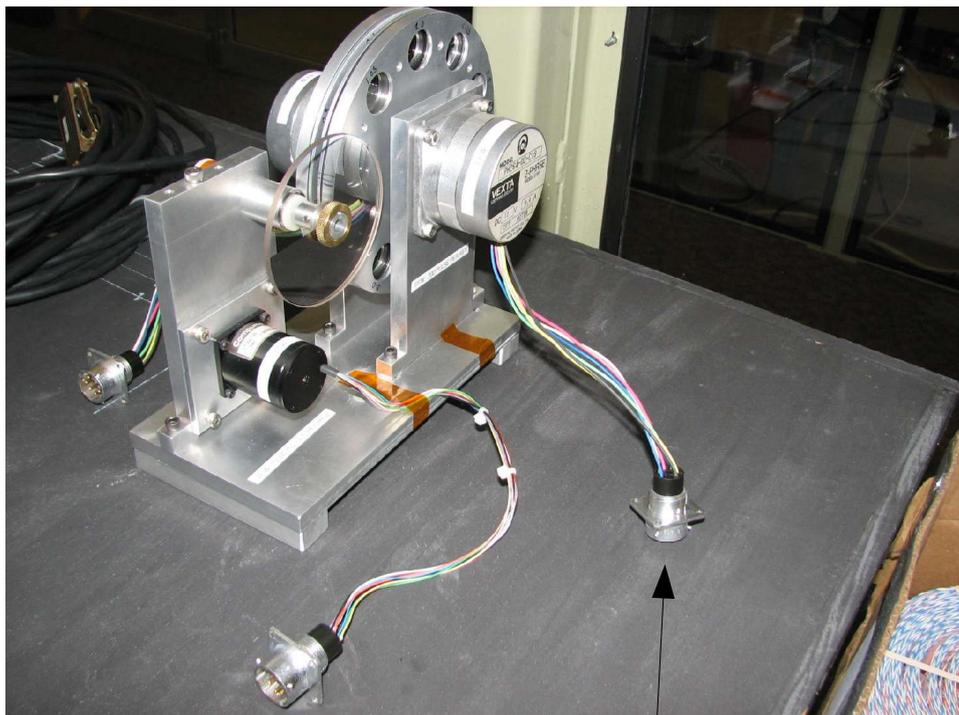

Note: Everything is labeled as "VFW"

Connection for the Fixed Filter Wheels (FFW)

There are two FFW's.

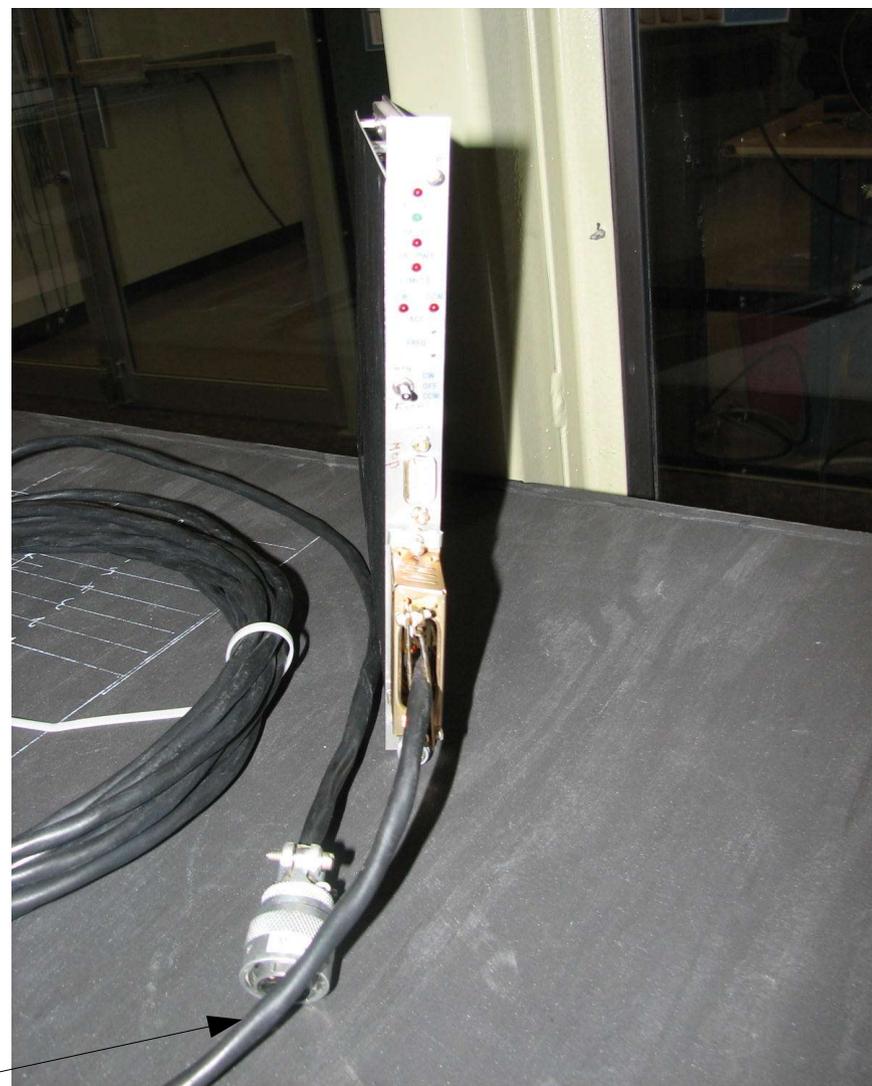

FFW's use power from CAMAC back plane

Joerger SMC24 BP CAMAC are modified slightly for this purpose.

Black Cable goes to FFW

Joerger SMC24 BP (specially modified)

Note: Everything is labeled as "FFW"
