Irakli Chakaberia
Kansas State University
For : DESY Fellowships

March 17, 2013

To: DESY human resources department,

I am a PhD student in the last phase of my studies. I am very interested in the fellowship opportunities at DESY.

My current research is in high energy physics with the CMS experiment. I am familiar with DESY through its major involvement in the CMS. I've been supervising the DQM shifts for the CMS from the Fermilab Remote Operation Center (ROC) and DESY shares this responsibility too, by conducting similar shifts from the DESY ROC. It is a major center for high energy physics and it would be a tremendous opportunity to continue research in particle physics at DESY in one of the numerous experiments it offers through the fellowship.

The announcement mentioned the requirement of the copies of university degrees. I am expecting to receive my PhD and will send the copies as soon as I do. Do you require the copies of my masters and bachelors degrees as well?

Please consider my application for the post-doctoral position. Following referees will email the recommendation letters directly:

- **Dr. Tim Bolton** - Kansas State University
Email: bolton@phys.ksu.edu
- **Dr. Danek Kotlinski** - Paul Scherrer Institute
Email: danek.kotlinski@psi.ch
- **Dr. Kaori Maeshima** - Fermi National Accelerator Laboratory
Email: maeshima@fnal.gov

Please, find attached application documents:

- Curriculum Vitae
- Statement of Research

I look forward to hearing from you. Please feel free to contact me if you need any additional information.

Sincerely,

Irakli Chakaberia
