

CURRICULUM VITAE

Scott Dodelson

Fermi National Accelerator Laboratory

Box 500 MS-209

Batavia, Illinois 60510

(630) 840-2426 ; (847) 982-0429

EMPLOYMENT

Fermi National Accelerator Laboratory

Scientist III (2011-present)

Interim Director, Center for Particle Astrophysics (2006-2008)

Scientist II (2004-2011)

Head Theoretical Astrophysics (2001-2006)

Scientist I (1999-2004)

Associate Scientist (1994-1999)

Research Associate (1991-1994)

University of Chicago

Professor, Part Time, Department of Astronomy and Astrophysics
(2004-present)

Associate Professor, Part Time (1998-2004)

Visiting Professor (1995-1998)

Northwestern University

Visiting Professor, Part Time, Department of Physics and Astronomy
(2004-5)

Harvard University

Post-doctoral Fellow, Department of Physics (1988-1991)

Columbia University

Research Assistant, Physics (1985-1988)

Research Assistant, Experimental Particle Physics (1983)

Weizmann Institute of Science

Research Assistant, Karyn Kupcinec International Science School (1982)

EDUCATION

Columbia University

PhD in Theoretical Physics, Advised by Gerald Feinberg (1988)

Joint BA/BS in Applied Physics, Columbia College

and School of Engineering and Applied Science (1983)

TEACHING AND MENTORING

- 2002-present: Supervised undergraduate theses: Sara Burtwell, “Correlation function of SDSS galaxies,” (2002); Matt Billmire, “Lensing of the CMB by clusters of galaxies,” (2003); Brian Klein, “Weak Lensing by Clusters in HST Data” (2007).
- 1995-present: Taught in Department of Astronomy and Astrophysics at the University of Chicago. Graduate seminars on the large scale structure of the universe, the cosmic microwave background, gravitational lensing, and QSO absorption systems. Core courses for first year graduate students on Radiative Processes in Astrophysics, The Galaxy, and Cosmology. Undergraduate course on galaxies and the universe for physics majors concentrating in astronomy and PHYS 120 “The Universe and How we Know”. Taught astronomy course for sophomores at Northwestern University.
- 1995-present: Supervised graduate students: Kim Coble (PhD 1999), Ryan Scranton (2002), Eduardo Rozo (2006), Fabian Schmidt (2009), Melanie Simet (2012), Eric Baxter (2009-present), Alan Zablacky (2010-12), Tim Linden (2010-11), Sohyun Park (2011-12), Hsin-Yu Chen (2011-12), Youngsoo Park (2012-present), Ross Cawthon (2012-present), Alessandro Manzotti (2012-present).
- 1994-present: Supervised post-doctoral fellows. These include: Stephane Colombi (currently faculty at IAP), Andrew Heckler (Ohio State), Yun Wang (Oklahoma), Istvan Szapudi (Hawaii), Antonio Riotto (Geneva), Will Kinney (Buffalo), Chris Metzler, Lam Hui (Columbia), Andrew Sornborger (UC, Davis), Ewan Stewart (KAIST), Zoltan Haiman (Columbia), Pasquale Blasi (Florence), Michael Blanton (NYU), Idit Zehavi (Case Western), Ravi Sheth (Penn), Andreas Berlind (Vanderbilt), John Beacom (Ohio State), Nicole Bell (Melbourne), Patrick Greene (Texas), Kev Abazajian (Irvine), Gianfranco Bertone (GRAPPA Institute), Pengjie Zhang (Shanghai), Dan Hooper (FNAL), Kenji Kadota (Nagoya), Mark Jackson (IAP, Paris), Chris Vale, Emiliano Sefusatti (ICTP), Pasquale Serpico (Savoie, CNRS), Hee-Jong Seo (Berkeley), Jeter Hall (LLNL), Jonghee Yoo (FNAL), Jason Steffen (Sierra), Jeff Kubo, Gajus Miknaitis, Eun-Joo Ahn (FNAL), Alberto Vallinotto (LBL), and Andrew Hearin (FNAL).
- 1987-1990: Volunteer: Brookline School System and Double Discovery Program in New York City. Guided disadvantaged elementary student in independent research project. Tutored urban high school students in math and science.
- 1982 - 1986: Preceptor of Columbia’s undergraduate physics labs.

GRANTS

- Framework for Analysis of Cosmological Surveys, DOE-HEP (2013-14)

- Fermilab PI, Scientific Discovery through Advanced Computing, “Computation-Driven Discovery for the Dark Universe” (2012-14)
- Co-I, NSF Physics Frontier Center, “Pushing Cosmology to the Edge,” (2011-2016)
- PI, National Science Foundation Grant AST-0908072, “Precision Measures of the Dark Sector,” (2009-2012)
- Co-I, DOE Discovering the Nature of Dark Energy Program, “Towards Precision Cosmology in the Non-linear Regime” (2008)
- Co-I, NASA Mission Concept Study Award NNX08AT71G S01 (2008-9)
- PI, Brinson Post-doctoral Fellowship Program (2006, 2007)
- PI, Fermilab-University of Chicago Strategic Collaborative Initiative, “Computational Cosmology,” (2007)
- PI, NASA Grant NAG5-10842, “Fundamental Physics from Space” (2004-2006)
- PI, National Science Foundation Grant 0118263, “Workshop on Cosmology” (2001)
- PI, National Science Foundation Grant PHY-0079251, “Probing Fundamental Physics with Cosmological Observations,” (2000-2003)
- Co-I on Fermilab Astrophysics’ NASA ATP grants (1994-2003)

AWARDS

- Honorable Mention, *Gravity Research Foundation* (2011)
- Strategic Laboratory Leadership Program, University of Chicago Business School (2008)
- *Fellow*, American Physical Society (2004)
- Garden State Graduate Fellowship (1983)
- Sigma Pi Sigma (Physics Honor Society) (1983)
- Third, second prizes, Van Buren Math Prize Competition (1982,83)
- Tau Beta Pi (National Engineering Honor Society) (1982)

PROFESSIONAL ACTIVITIES

- International Advisory Committee, 26th International Conference on Neutrino Physics and Astrophysics (Neutrino 2014)
- Chair, Candidacy Exam Committee, University of Chicago (2012-13)
- Convener, Software Working Group, LSST Dark Energy Science Collaboration (2012-present)
- Organizing Committee, XC3: External Correlations of the CMB and Cosmology (2013)
- Scientific Review, Swiss National Supercomputing Centre (2013)
- Deputy Secretary-Treasurer, Division of Astrophysics, American Physical Society (2013-14)
- DOE HEP Dark Energy Science Plan Task Force (2012)
- Hans Bethe Award Committee, American Physical Society (2012, 2013)
- Co-Chair, Task Force on DES Scientific Computing (2012)

- Convener, “Dark Energy and CMB” sub-group, Snowmass Community Study (2012-13)
- Panelist, DOE Comparative Reviews (2012, 2013)
- Reviewer, NASA Postdoctoral Program (2011)
- Co-Lead, Inflation MA, Physics Frontier Center (2011-present)
- Co-coordinator, Theory and Combined Probes Working Group, Dark Energy Survey (2011-present)
- Local Organizing Committee, SUSY 2011
- Reviewer, Consolider Program, Spanish Ministry of Science and Innovation (2011)
- External Reviewer, Research Grants Council, Hong Kong (2011)
- Reviewer, DOE Early Career Research Program (2011)
- Summer Public Lectures and Dialogs Committee, Aspen Center for Physics (2011)
- Co-convenor, Meeting of the Division of Particles and Fields, APS (2011)
- Chicagoland Task Force on Computational Cosmology, co-Chair (2011)
- Reviewer for Discovery Grants submitted to National Sciences and Engineering Research Council of Canada (NSERC)
- Reviewer for Swiss National Science Foundation (2010)
- Admissions Committee, Aspen Center for Physics (4 years)
- Scientific Organizing Committee, Fermilab Symposium on the Cosmic Frontier (2011)
- International Coordinator, Kavli Institute for Theoretical Physics China 4-week Cosmology Program
- International Advisory Committee, TAUP 2011
- Reviewer, Consolider Cosmology Program (2010)
- DOE Visiting Committee, Caltech (2010)
- Summer Program Committee, Aspen Center for Physics (2010)
- Chair, NASA Astrophysics Theory Program Review Panel “Cosmic Microwave Background” (2009)
- Chair, NSF Review Panel “Large Scale Structure” (2009)
- Co-Chair, Scientific Committee, Theoretical Advanced Studies Institute (TASI) (2009)
- Chair, Summer Program Committee, Aspen Center for Physics (2009)
- Strategic Planning Committee, Kavli Institute for Cosmological Physics (2008-9)
- Chair, Organizing Committee, CMBPol Theory Workshop (2008)
- Editor, Physics Letters B (2008-present)
- Advisor, *Annual Review of Nuclear and Particle Science* (2007)
- External Referee: Israel Science Foundation, Natural Sciences and Engineering Research Council of Canada (2007)
- Chair, NASA Astronomy and Physics Research and Analysis panel (2007)

- Panel Member for DOE Innovative and Novel Computational Impact on Theory and Experiment (INCITE) Program (2006)
- Member, Astronomy and Astrophysics Advisory Committee (2006-09)
- Member, Aspen Center for Physics (2006-present)
- Program Committee, Annual Meeting Division of Particle of Fields (2006)
- Managing Editor, International Journal of Modern Physics D (2004-08)
- Divisional Editor, Physical Review D (2004-06)
- Organizer, “Fundamental Physics from Clusters of Galaxies” (2004)
- Editor, Journal of Astroparticle Physics (2003-present)
- Member, Local Advisory Committee, Center for Cosmological Physics, Chicago (2001-5)
- Head, External Advisory Committee, Theoretical Astrophysics Center, Denmark (2002)
- Co-organizer, Workshop on Neutrinos and Cosmology, Fermilab and Cosmo-02 (2002)
- Co-Organizer “Chicago Chattaqua on Cosmology,” for thirty college teachers (1999,2001)
- Co-Organizer “Pritzker Symposium and Workshop on Inflation,” (1999) “Inner Space/Outer Space II,” and “Santa Fe Workshop on Cosmology” (1999).
- Organized “Sloan Digital Sky Survey Collaboration Meeting” and “Missing Energy in the Universe” Workshop (1998)
- Panel member for National Science Foundation research proposals
- Panel member for NASA Astrophysics Theory Program research proposals
- Reviewer for Department of Energy research proposals
- Referee for *Physical Review D*, *Physical Review Letters*, *Astrophysical Journal*, *Astrophysical Journal Letters*, *Annals of Physics*, *Physics Letters*, *New Astronomy*, *Nature*, *JCAP*
- Preceptor overseeing undergraduate labs, Columbia University (1985)

Books

Modern Cosmology (Academic Press, Amsterdam, 2003).

CMB Polarization Workshop: Theory and Foregrounds: CMBPol Mission Concept Study, Editor (American Institute of Physics, 2009).

Physics of the Large and the Small: Tasi 2009, Proceedings of the 2009 Theoretical Advanced Study Institute in Elementary Particle Physics, co-Editor (World Scientific 2011).
