OGP Measurements of unconstrained straw 2

Nominal horizontal spacing of straws in module assembly fixture, 4.155 mm

Nominal straw diameter used in prototype design, 4.128 mm
OGP Measurements of unconstrained straw 3

Nominal horizontal spacing of straws in module assembly fixture, 4.155 mm
Nominal straw diameter used in prototype design, 4.128 mm
OGP Measurements of unconstrained straw 4

Chart of straw4

Nominal horizontal spacing of straws in module assembly fixture, 4.155 mm

Nominal straw diameter used in prototype design, 4.128 mm
Chart of straw 5

OGP Measurements of unconstrained straw 5

Nominal horizontal spacing of straws in module assembly fixture, 4.155 mm

Nominal straw diameter used in prototype design, 4.128 mm
OGP Measurements of unconstrained straw 6

Nominal horizontal spacing of straws in module assembly fixture, 4.155 mm

Nominal straw diameter used in prototype design, 4.128 mm
