Measured Gas Loads
HDI cable, G-10 electric board, Carbon Fiber Panels, Glassy Carbon Tube Manifold, & Chips

![Graph showing measured gas loads over time for various components.]

- Bump bonded chips
- Bump bonded chips - solder
- ESLI tube manifold
- HDI
- Electric boards
- Carbon fiber panels
- Empty chamber

Overall dimensions:
- Fuzzy carbon: 5.25"x0.31"x0.75"
- Bump bonded chip: 0.5"x0.32"

Total number of chips:
- 6 indium bonded chips
- 6 soldered chips
