Measured Outgassing Rates
HDI cable, G-10 electric board, Carbon Fiber Panels, & Chips
(Outgassing rates are calculated based on the surface area of the overall volume)

Total surface area:
- Bump bonded chips: 44 cm$^2$
- HDI: 756 cm$^2$
- Electrical boards: 773 cm$^2$
- Carbon fiber panels: 379 cm$^2$
- Empty chamber: 222 cm$^2$
